Field Description

Paste Group (censers, figurines): C Thickness 1.0 cm.

Handle width

Form (censers):

Height 4.0 cm.

Handle thickness

Width 5.8 cm.Diameter 1.4 cm.

Full

Verbal Description Candelero fragment, 5 chambers or partial chambers visible.

Chambers are 1.9 cm in diameter & 3.6 cm deep. Burning occurs in the base of the chamber & 1.5 cm up from this. Burning goes through the interior walls, but does not go very far into the base of the Candelero itself. One chamber has an exterior wall & this has a hole that starts at the base & is 1.9 cm high & 1.2 cm wide. Decoration is 2 groups of parallel lines, probably 2 pt incision, one group on either side of the hole (this corresponds on the interior to chamber walls & not the chambers themselves. No paint or slip. Base is flat, but rest of Candelero slants. Top is pretty smooth.
